## **PROFESSIONAL SUMMARY**

Experienced Software Engineer focused on delivering tangible results, boasting a track record of successfully contributing to various technology companies across FinTech, Healthcare, ECommerce, and EduTech sectors. Possesses robust skills in Backend, REST APIs, Mobile-development, Microservices, Distributed systems, Containerization, CI/CD, and Cloud Technologies.

## **SKILLS**

Core Python, Java, C/C++, Dart, JavaScript,

Django, Flask, Django REST Framework, Fast-API, Flutter, SpringBoot, Next-JS

PostgreSQL, MySQL, MongoDB, Bootstrap, Docker

Git, GitHub CI/CD

Microservices, Agile Software Development, Waterfall Development, Test-Driven Development

Linux, Windows, macOS

Teamwork, Great Written/Verbal English skills, Collaboration, Technical Writing

## **EXPERIENCE**

### **KTECHHUB, ACCRA GHANA**

#### **Backend Developer | April 2025**

- Developed and maintained backend services using **Python**, **Django**, and **FastAPI**, ensuring scalability, security, and high performance.
- Designed and implemented **RESTful APIs** to enable seamless integration with frontend applications and third-party services.

### **MPEDIGREE, GHANA**

#### **Backend and Mobile Developer | July 2024 – January 2025**

- Led the development of mobile applications using Flutter, achieving 100% cross-platform compatibility and delivering high-quality, intuitive user interfaces that improved overall usability.
- Contributed to the backend development for the Signets platform, leveraging Python for robust server-side logic and implementing RESTful APIs.

## **COUPCODE ACCRA, GHANA**

**Python Backend Developer | February 2023 – December 2024**

- Contributed to backend development for an event management platform, leveraging Python for robust server-side logic and implementing RESTful APIs.
- Collaborated closely with frontend peers to ensure seamless integration, enhancing user experience and data flow.

## **TROPICAL TECHNOLOGIES ACCRA, GHANA**

**Python Backend Developer | April 2022 – April 2023**

- Developed core backend infrastructure for a user-centric crypto exchange using Python, ensuring real-time data processing and optimal performance.
- Collaborated with DevOps and frontend teams to deploy and maintain the platform, contributing to a user-friendly trading environment.

## **LIVE PROJECTS**

- MyPortfolio ( <https://porfoliomohammedali.pythonanywhere.com/> )
- AfricanParliamentarians'On Development Evaluation, APNODE ( <https://www.apnode.org/> )
- Cartiify ( <https://cartiify.pythonanywhere.com/> )

## **EDUCATION**

**Bachelor of Science in Computer Science**

University of Energy and Natural Resources, Sunyani Ghana.
